

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

4. A statement of all allowances made by the Postmaster-General, within the same period of two years, to each contractor on contracts for carrying the mail, discriminating the sum paid as stipulated by the original contract and the sums paid as additional allowance.

AN ACT PROVIDING FOR THE PRINTING AND DISTRIBUTION OF THE BIENNIAL REGISTER.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That in lieu of the number of copies of the Biennial Register now authorized by law to be printed, the Secretary of the Interior be, and he is hereby, directed to cause to be printed twenty-five hundred copies of the said work, to be distributed as follows: To the President of the United States, four copies, one copy of which shall be for the library of the Executive Mansion; to the Vice-President of the United States, two copies; to each Senator, Representative, and Delegate in Congress, one copy; to the Secretary of the Senate, one copy; to the Clerk of the House, one copy; to the library of the Senate, fifty copies, of which one copy shall be supplied to each standing committee of the Senate; to the library of the House of Representatives, seventy-five copies, of which one copy shall be supplied to each standing committee of the House; to the library of Congress, twenty-five copies; to the Department of State, two hundred and fifty copies; to the Treasury Department, one hundred and fifty copies; to the War Department, fifty copies; to the Navy Department, twenty copies; to the Department of Justice, twenty-five copies; to the Post-Office Department, one hundred copies; to the Department of the Interior, two hundred and fifty copies; to the Department of Agriculture, five copies; to the Smithsonian Institution, four copies; to the State library and State historical society of each State, and to the executive of each Territory, and to the designated depository of public documents in each congressional district in the United States, one copy each; and the remaining copies shall be kept by the Secretary of the Interior as a reserve, from which he may supply newly-created offices; and members of Congress one additional copy each.

SEC. 2. That, hereafter, the lists directed by sections one hundred and ninety-eight and five hundred and ten, of the Revised Statutes, to be furnished by the several Departments and offices of the Government for the Biennial Register, shall be made up to the last day of June of each year in which a new Congress is to assemble, and shall be filed as soon thereafter as practicable in the Department of the Interior.

Approved December 15, 1877.

That Section 2 of the act of December 15, 1877, entitled "An act providing for the printing and distribution of the Biennial Register," is hereby so amended as to read "THE FIRST DAY OF JULY," instead of "the last day of June," as the day upon which the lists of the Biennial Register shall in future be made up.

Approved June 16, 1880.
